

Cincom CPQ™ for Microsoft Dynamics® AX

AX
Microsoft
Dynamics

Improve sales effectiveness with integrated configure-price-quote capabilities across both your direct and indirect sales channels.

How much more business could you win if you could make every sales, customer-service and dealer rep a solution expert?

What would it mean to your sales capacity if you could slash the time it takes to produce comprehensive, compelling proposals?

What would it mean to your profitability if you could quickly ensure 100 percent accurate product configurations and pricing every time?

With Cincom CPQ for Microsoft Dynamics AX, you can do all of that and much more. Cincom CPQ integrates multi-channel capabilities for guided selling, product and service configuration, pricing, visualization and proposal generation into the proven, widely adopted Microsoft Dynamics AX platform. Combined with the power of Microsoft Dynamics AX, Cincom CPQ enables you to grow sales, increase margins, accelerate sales cycles, streamline fulfillment and expand into new markets.

Cincom CPQ sets you apart from the competition by consistently delivering a customer experience that fully aligns with the way your customers want to buy.

Microsoft Dynamics AX
integration – Embed advanced
configuration within ERP

Use for:

- Customized products, services and solutions—from simple to complex
- Direct sales, dealers or any number of different channels
- Anywhere, anytime selling via any mobile or desktop device
- Global selling with localized language and currency
- Common configurator across ERP, CRM and e-commerce

Benefits:

- **Fully leverage your Microsoft Dynamics AX investment** by embedding sophisticated configure-price-quote functions directly within your sales and marketing processes.
- **Increase sales effectiveness** with higher quote volumes, win rates and margins.
- **Reduce selling costs** by requiring less engineering and other sales support.
- **Ensure pricing accuracy** with dynamic, configuration-driven price calculations.
- **Streamline fulfillment** with automated generation of configuration-specific BOMs, routes and more to drive production within Microsoft Dynamics AX.
- **Enable growth** by speeding introduction of new products, rapidly training new sales reps, attracting more dealers, expanding geographic coverage and capturing quote data for analysis.

Features
