

## Fundamentally Change What You Can Achieve With Your ERP System

As your full-service partner, we achieve success by providing solutions that meet your unique technology needs and outperform your ROI objectives. Western Computer becomes an extension of your business by providing a dedicated Account Manager for breakthrough customer service.

### ✓ World Class Products

- **Microsoft Dynamics AX:** An ERP system that was designed to manage the complexities of global organizations across multiple sites, Dynamics AX allows you to centralize and standardize processes, collaborate effectively across your organization and build more profitable partnerships.
- **Microsoft Dynamics NAV:** Microsoft Dynamics NAV was developed specifically for small to mid-size companies looking for a single ERP solution that can be implemented rapidly, customized and maintained with minimal disruption. With over 90,000 customers worldwide, it is one of the most popular ERP systems in the world.
- **Microsoft Dynamics 365: Microsoft Dynamics 365 Enterprise Edition** unifies CRM and ERP capabilities into applications that work seamlessly together across sales, customer service, field service, operations, financials, marketing, and project service automation. **Microsoft Dynamics 365 Business Edition** is designed for companies with smaller user requirements in need of sales, financials, and customer service modules. Both Dynamics 365 Editions allow you to start with the applications you need and add additional capabilities as your business needs grow.
- **Integrated tools from our certified Microsoft Dynamics ISV partners.**
